

Focus on this now!

Very generic

General! No implementation

1. Introduction/
Motivation

Why is something like this needed? What are the necessary requirements?

Scenarios

2. State of the art/
Related work

What did others do?
Similar work

3. Your approach/
Implementation

Discuss what you use from this. Why is your solution different

Evaluation

System architecture
System Design
Data model

Already 2/3

4. Discussion +
Conclusion

Very specific
How did you implement
i.e. App Map View
What frame works

What else could be done

Differs

... else could be done
Where does your app fall short? \Rightarrow ~~Different~~
Solutions!
